

Solar system buy online

Where can I buy solar panels?

Generate clean, renewable electricity for your home, business, marine vessel, or RV using solar panels from EcoDirect! Located near San Diego, California, EcoDirect sells solar panels online and offers will-call options for local customers. For sizing help, please call us at (760) 597-0498 x2.

How much do solar panels cost?

Some solar panels can run as high as \$600. The total number of solar panels you need will depend on your home's size and energy needs. Remember, solar panel prices do not include the cost of inverters, racking, and other necessary parts for a complete system installation. That's why it's financially wiser to get a complete solar kit.

What is a complete solar system kit?

Complete solar panel system kits that are the most energy-efficient and reliable on the market today. Solar packages include everything you need to get your residential system up and running. Simply determine your required energy use and select the solar kit that is right for your home.

Why should you buy a solar system?

Generate your own clean energy from the sun for free with solar. Add Powerwall to store your energy for use anytime you need it. Tax incentives and flexible financing options ensure you get the best price for your solar system. Power your home with emissions-free, renewable energy directly from the sun.

Should you buy a solar home kit?

The wattage that you can harness generally increases with the amount you spend on your solar home kit. More expensive models have more solar panels. These relatively inexpensive kits can save you significant amounts of money on your energy bill. A solar home kit is a great investment to supply your home with clean, renewable power.

Can I buy solar panels in bulk containers?

Buy solar panels in bulk containers for large PV projects. Save BIG! Contact us for a quote on container pricing. Solar panels convert sunshine into renewable electricity. They come in all shapes and sizes, from durable thin-film solar panels to rigid aluminium-framed crystalline solar panels.
