

Sunrun solar company reviews

Should you buy solar panels from Sunrun?

Sunrun is worth considering for those planning to lease solar panels or purchase additional products to maximize the electricity their panels produce. If you want to own your solar panels, the company offers a standard warranty and options to set up a loan or pay upfront.

Is Sunrun a good solar company?

Over 900,000 homes across the U.S. have gone solar with Sunrun. Sunrun is the best solar company you can find out there. They are very cost effective compared to other solar companies out there. I am very happy with my purchase and would refer... My solar system is producing as much as our Sunrun rep promised us.

How much does a Sunrun Solar System cost?

A typical Sunrun installation generates 7,500 watts, putting the average cost at \$30,000. However, this doesn't take into account federal tax credits, which cover 30% of the cost. And don't forget that most Sunrun customers choose to lease their system, for as little as \$0 down. What other solar products and services does Sunrun offer?

Does Sunrun have good customer reviews?

Although Sunrun gets generally positive customer reviews, negative reviews mention trouble transferring accounts to new homeowners after moving, customer service issues, and deceptive marketing regarding efficiency expectations.

Does Sunrun offer solar loans?

The company still offers solar loans and full purchase payment options, but there are fewer additional perks with these plans with Sunrun. This dynamic makes Sunrun less appealing if you care to get more financial gain out of a solar panel system, which loans and full purchases permit.

What brand of solar panels does Sunrun use?

The company doesn't go into specifics about the brand of panels used in its system, but you can ask about that during the consultation. The company provides a unique battery product, the Sunrun Shift, for California and Hawaii homeowners to use solar electricity later in the day, during peak hours.
