

# Tashkent energy storage mobile power manufacturer

What are the Tashkent projects?

The Tashkent projects will include a 400 MW PV plant and 500 MWh BESS, while two 500 MW PV projects each and a 500 MWh BESS will be developed in Samarkand. Another 500 MWh BESS will be located in Bukhara, and the project will include overhead transmission lines to help dispatch power to the grid.

Who owns a 200 MW photovoltaic plant in Uzbekistan?

ACWA Power and the JSC National Electrical Grid of Uzbekistan signed a 25-year Power Purchase Agreement (PPA) for the development/construction/operation of a 200 MW photovoltaic plant including a battery energy storage system ("BESS"). JSC National Electric Grid of Uzbekistan acts as the sole off-taker.

Who owns the PV plant in Tashkent?

The plot of land designated for the development of the PV plant facilities, including the collector sub-station is under the ownership of the Joint Stock Company (JSC) Uzsuvtaminot, which is a utility company providing water supply and sewerage services within Tashkent Region.

Where is Bess project located in Tashkent?

The PV plant and the BESS facility are situated 3.5 km apart, within Yuqorichirchik District and Parkent District respectively. Both districts are located within Tashkent Region. The overall project location lies about 20 km from Tashkent City.

How many projects does ACWA Power have in Uzbekistan?

ACWA Power has five ongoing projects in Uzbekistan, including four wind projects and a combined gas cycle turbine facility. Uzbekistan is the second largest in terms of value for the company after its home market of Saudi Arabia.

Who signed the Uzbekistan power purchase agreement?

The Investment Agreements were signed by the Ministry of Investment, Industry and Trade of Uzbekistan, and ACWA Power, while the Power Purchase Agreements were signed by the National Electric Grid of Uzbekistan JSC (NEGU) and ACWA Power.

They are organizing a facility of up to US\$ 229.4 million for the development, design, construction, and operation of a 500 MWh battery energy storage system (BESS) and a 200 MW solar photovoltaic power plant in the country's Tashkent region. This is one of the largest EBRD-supported BESS projects in the economies where the Bank operates. The ...

ACWA Power has announced the completion of the dry financial close for its fully-owned \$533m Tashkent Riverside project in Yuqori-Chirchiq, located in Uzbekistan's Tashkent Region. The project is made up of a 200MW solar photovoltaic (PV) plant and a 500MWh battery energy storage system (BESS), which are expected to help stabilise the Uzbek grid.

The projects in Tashkent include a 400-megawatt (MW) solar plant and 500 MW-hour of battery storage. Two 500MW solar projects and a 500MWh battery will be built in Samarkand, whilst another 500MWh of the battery will be developed in Bukhara which will include overhead transmission lines to dispatch power to the grid.

The agreements cover the development of three solar photovoltaic (PV) projects in Tashkent and Samarkand and three Battery Energy Storage Systems (BESS) in Tashkent, Bukhara and Samarkand, with a total capacity of 1.4 GW of additional renewable energy and 1.5 GWh of additional battery storage capacity.

A Voltalia solar PV project in Albania. Image: Voltalia. France-headquartered independent power producer (IPP) Voltalia has started building a 126MW solar PV project in Uzbekistan, to which it will add a 50MW/100MWh battery energy storage system (BESS) with plans to build another project ten times as big.
