As the global energy landscape continues to evolve, the demand for efficient, scalable, and versatile energy storage solutions has become more pronounced. Among the various types of energy storage batteries, wall-mounted, rack-mounted, and stacked configurations have emerged as leading options, each catering to specific needs and market segments.

Three-phase energy storage wall mounted unit

The Sunsynk 12kW 3-Phase Hybrid Inverter 12K-SG04LP3 is a highly reliable and efficient power management tool for three-phase grid applications. The hybrid inverter allows the simple integration and management of power from solar panels, the main electrical grid and generators. Power can be stored and distributed to your applications as required.
