

Types of italian smart energy storage cabinets

Who manufactures electrochemical storage systems?

SAET manufactures electrochemical storage systems, both stand alone and associated with other plants. SAET acts as the EPC Contractor for the supply of turnkey systems.

What is SAET's role in energy storage?

SAET is a company present on the international Energy Storage market, providing turnkey systems of various sizes. They handle the project from the initial steps, such as feasibility study and cost-benefit analysis, to the definition of the sizing and optimal energy/power ratio, and the detailed design and optimization of the storage system performance.

What is energy storage?

ECONOMIC Behind a simple and elegant design the storage systems "all in one" Energy Storage hide a cutting-edge technology: they are able to accumulate energy instantly during the day and return it automatically with great efficiency by day, evening, night or when needed, thanks to lithium or accumulator batteries.
