What companies trade in electricity in Zambia?

Private companiesalso trade in electricity in Zambia. The largest of these,Copperbelt Energy Corporation Plc (CEC),buys electricity primarily from ZESCO and sells it to the various mines in the Copperbelt Province. It also operates its own generators,most of which run on fossil fuels.

What will Zambia's energy demand look like in 2040?

The government anticipates that peak demand will be at 8,000 MW by 2030 and 10,000 MWby 2040 (from around 3,000 MW in 2022). It also projects that the demand will be largely driven by mining and agricultural consumers and not residential consumers as projected in the COSS (Government of Zambia,2022). 4.
