

Zeekr energy storage products

What battery does zeekr use?

Zeekr has used nickel-manganese-cobalt(NMC) batteries from the world's largest battery maker,CATL,to power its 001 crossover and 009 multipurpose vehicles (MPV). CATL has also launched fast-charging batteries to be used in Li Auto's first pure electric MPV MEGA,enabling a driving range of 500 km (300 miles) with a charging time of 12 minutes.

How long does a zeekr battery last?

Credit: Geely/Zeekr Chinese EV brand Zeekr on Thursday announced the launch of a fast-charging,affordable,lithium iron phosphate (LFP) battery capable of running 500 kilometers(310 miles) on a 10-minute charge,becoming the latest automaker to seek more self-reliance and better cost control over the critical EV component.

Is zeekr the new EV battery manufacturer?

Zeekr becomes the latest manufacturer to launch such a battery in a competitive market,as it moves to cut dependence on external suppliers for the key component of electric vehicles,or EVs.

What is zeekr EV?
