WANG Chao, XIANG XIAO, ZHONG Guobin, WANG Pei, LIU Liming, ZHAO Yabin, SHI Zhiqiang. Water chestnut-based hard carbon prepared by hydrothermal-carbonization method as anode for lithium ion battery[J]. Energy Storage Science and Technology, 2020, 9(3): 818-825.

The advantages of such a method include high efficiency, reduced topographical limitations, and flexibility in storage scale, providing a potentially suitable technology for storing offshore renewable energy. In this paper, a brief review is given first on emerging compressed air energy storage technologies, the focus is the on the UCAES.

The review of thermal management technology for large-scale lithium-ion battery energy storage system ZHONG Guobin, WANG Yuping, WANG Chao, XIANG Jiayuan, SU Wei, CHEN Jian 1Electric Power Research Institute of Guangdong Power Grid Co. Ltd., Guangzhou 510080, Guangdong, China;2Narada Power Source Co., Ltd., Hangzhou 311305, Zhejiang, China ...

ZHONG Guobin 1, ZHOU Fangfang 1, 2, SU Wei 1, ... These retired batteries have considerable remaining capacity and lifetime, and can be used for energy storage. In order to improve the safety and output performances, the retired cells should be re-sorting and assembling in series/parallel. To study their performance of a battery using cells ...

DOI: 10.19799/J.CNKI.2095-4239.2019.0254 Corpus ID: 238104498; Water chestnut-based hard carbon prepared by hydrothermal-carbonization method as anode for lithium ion battery @article{Wang2020WaterCH, title={Water chestnut-based hard carbon prepared by hydrothermal-carbonization method as anode for lithium ion battery}, author={Chao Wang and ...

Aqueous Zn//MnO₂ batteries are emerging as promising large-scale energy storage devices owing to their cost-effectiveness, high safety, high output voltage, and energy density. However, the MnO₂ cathode suffers from intrinsically poor rate performance and rapid capacity deterioration. Here, we remove the roadblock by compositing MnO₂ nanorods with highly ...

The battery energy storage system with an excellent control performance has become a new generation of support means for dealing with the frequency problem after faults or high-power disturbances. However, the market mechanism for energy storage applications has not yet been clarified, and the value measurement has

not yet become systematic ...

Energy storage systems (ESSs) plays a crucial role in many parts of the renewable energy resources and power sectors, such as the generation, transmission, distribution and the sale of electricity power. ... Jin Chenhui, Jiang Xinjian, Zhong Guobin, Li Xi. Research on coordinated control strategy of flywheel energy storage array for island ...

The energy storage system can effectively solve problem of intermittence, volatility and source-load misalignment of distributed renewable energy, especially wind-solar generation in the micro-grid system. ... CHEN Jinpan, ZHAO Hong, ZHONG Guobin, HU Qiaoming, DENG Wen, XU Lixin, LAI Junke, LI Chaofan, CHEN Xiaochuan. 2019, 8 (3): 602 ...

SU Wei 1, ZHONG Guobin 2, SHEN Jiani 3, WANG Chao 2, XU Jinlong 3, HE Yijun 3, MA Zifeng 3 1 Guangdong Diankeyuan Energy Technology Co. Ltd., Guangzhou 510080, Guangdong, China; ... The progress in fault diagnosis techniques for lithium-ion batteries[J]. Energy Storage Science and Technology, 2019, 8(2): 225-236.

ZHONG Guobin, WANG Yuping, WANG Chao, XIANG Jiayuan, SU Wei, CHEN Jian. The review of thermal management technology for large-scale lithium-ion battery energy storage system[J]. Energy Storage Science and Technology, 2018, 7(2): 203-210.

Abstract: Lithium-ion battery is the most promising and efficient secondary battery, and is also the fastest development chemical energy storage power supply has become a hot competition in every country of world. Patent technology can reflect the current situation and process of the innovation and development of a ...

Abstract: Large-scale lithium-ion battery energy storage system is great important for improving the traditional power grid and the efficient utilize of new energy. In order to achieve a large-scale lithium-ion battery energy storage system with high rate, long life ...
